

durable high performance labels
for electronic, automotive, industrial, medical applications

Printed Label Protection Polymeric Overlam

IDENTCO's NEW Polymeric Overlam provides outstanding chemical and abrasion resistance to printed labels AND allows the user to add thermal transfer printing. All these features with lower profile and weight, greater flexibility to conform to curved surfaces and more economical than traditional overlaminating films. Polymeric Overlam also provides the high gloss "wet look" desired by design engineers and end users.

Contact your Identco sales representative for more information and a quote today.

- Chemical and abrasion resistant
