# TTL™ 200 Series

## Wire & Cable Identification Labels

Designed for cables and wire identification, the TTL™ 200 Series also works on other surfaces requiring conformability. IDENTCO's unique "site-hole" technology allows virtually any thermal transfer printer to print clear self-laminating labels accurately with minimal waste.

IDENTCO's wire and cable labels have been thoroughly tested and qualified to match the TTRR™-A ribbon. Combining the wire and cable labels with the TTRR™-A ribbon promises optimal print quality, UL recognition and lifelong product labels.

\*UL / CSA recognitions are contingent upon printing with the appropriate TTRR™ ribbon and IDENTCO material combination specified testing by Underwriters Laboratories and/or CSA.
